

ERGOSA

Fast. Flexible. Ergonomic.
Semi-Automatic Packing Solution

Starter Configuration: Horizontal and dual hand packing modes.

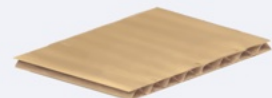

- Small to large straight-line and 4/6 corner boxes
- Complex box types such as autobottom boxes
- Specialized tray tooling for tiny boxes

- Upgrade to the Standard ERGOSA configuration to pack heavy folding-carton and corrugated boxes in Vertical Packing Mode using the PERPACK.
- High volume corrugated boxes are better packed on a VIRTUO Automatic Packer.

- Corrugated boxes are not compatible with the INH. These carton and box types can be processed with the INH in bypass mode. Optionally your sales manager may recommend an ERGOSA configuration that includes the IN2 box turner instead of the INH.

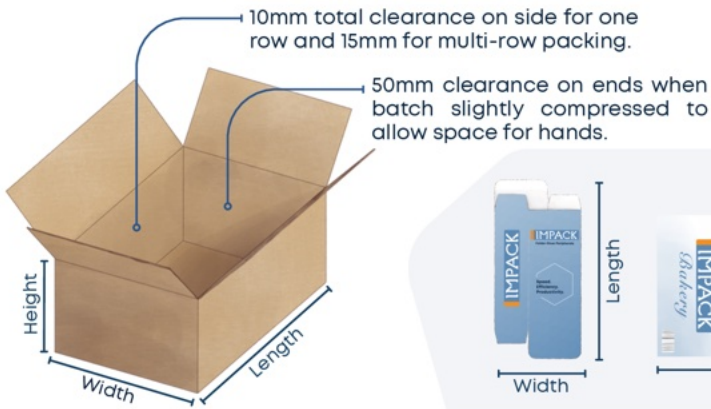

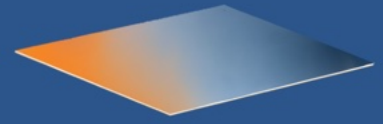

Multi-Row, Multi-Layer Case Configurations

Folder-Gluer Peripherals
Speed. Efficiency. Productivity.

	Box		Case
Width	Min.	75 mm / 3 in	115 mm / 4.5 in
	Max.	650 mm / 25.5 in	710 mm / 28 in
Length	Min.	75 mm / 3 in	150 mm / 6 in
	Max.	650 mm / 25.5 in	760 mm / 30 in
Height	Min.	N/A	100 mm / 4 in
	Max.	N/A	495 mm / 19.5 in

Length and width above determined by how the box exits the folder-gluer. Dimensions depend on configuration and packing mode. Other box dimensions are possible upon analysis.
