ERGOSA

Fast. Flexible. Ergonomic.

Semi-Automatic Packing Solution

Accumulation conveyor with integrated INH Box Turner

1 meter-long integrated INH helical box turner keeps the kicker count while

turning boxes on 2 axes

The speed of all of the sections

is synced with the folder-gluer

Removable adjustable shingle guides can be attached on the front and back of the accumulation conveyor for multi-

row packing

Dual hand packing stations doubles packing speed

> Automatic mechanism pushes boxes from dual packing station to a single conveyor

for delivery to a single case sealer

Folder-Gluer Peripherals

Electronic height adjustable case dock aligns case with accumulation conveyor

Width-adjustable pneumatic

case holding system prevents

case movement during packing

Height adjustable to accommodate case depth

> Case tilt and eject system is triggered by motion sensor or pedal

Foot-pedal-triggered case eject system

> Dual tray holder stations attach to either side of the accumulation

conveyor for packing tiny boxes

COMPETITIVE **ADVANTAGE**

Most flexible packer on the market. Optimized packing of all box types. Its modular design means the system can evolve and grow with your production.

Speed. Efficiency. Productivity.
