

TRAYVA

Fast. Efficient. Ergonomic.

Semi-Automatic Tray Packing Solution

**2025 New
Product Launch**

Patent Pending

- Automatic batch counting and separating
- Ergonomic highspeed packing station
- 2 - 6 lanes

8-10 Bundles
per Minute

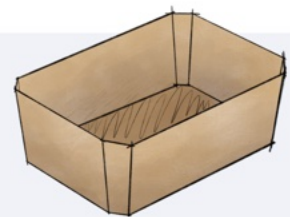

5-10 Minute
Changeovers
Per Lane

Since it's max speed outpaces tray forming machines the potential speed depends on max speed of the tray former

Productivity depends on many factors including the tray size and bundle length. i.e., One member of the packing team could pack for up to 6 lanes. Handling 1 bundle at a time, one worker could pack 8-10 bundles per minute. One worker can pack for 2 mirrored 3 lane tray former lines. Packing efficiency allows a reduction in packing personnel.

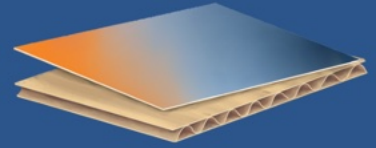

- For corrugated and folding carton trays. i.e., food trays.
- Works with 3rd-party tray forming machines

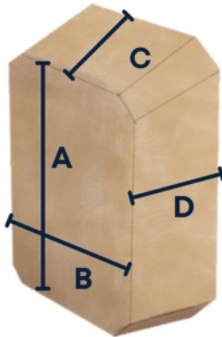

Folder-Gluer Peripherals
Speed. Efficiency. Productivity.
