

VIRTUO

Fast. Precise. Compact.
Automatic Packing Solution

Standard Configuration: Manual case feeding.

- Optimized for folding carton and corrugated rectangular shaped boxes
- Medium to large straight-line boxes, i.e., large beverage, cat litter boxes, dry detergent and dish washer capsule boxes
- Can also run small to medium straight-line boxes, but these may be better packed on an ERGOSA with an INH. Ask your sales representative for advice.

- Some 4/6 corner and basket beverage carriers can be packed on the Virtuo
- Some boxes have features that cause interlocking, i.e., handles or windows - testing will determine if these boxes are compatible with the system

- Autobottom boxes cannot be packed on the VIRTUO.

Single-Row, Single-Layer Case Configuration

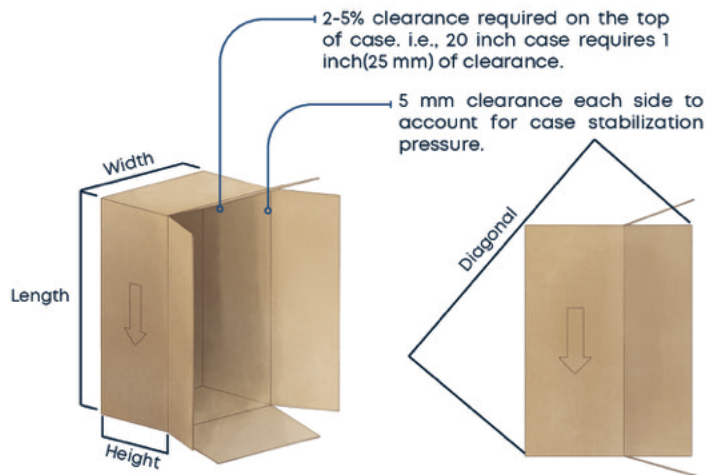

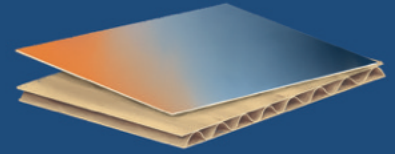

COMPETITIVE ADVANTAGE

High speed packing of folding-carton and corrugated packaging.

Folder-Gluer Peripherals
Speed. Efficiency. Productivity.
