

# MFA

Paired with ERGOSA

Automatic  
Batch  
Inverter  
Module

## BOX DIMENSIONS

Width	Min.	120 mm / 4.5 in
	Max.	650 mm / 25.5 in
Length	Min.	120 mm / 4.5 in
	Max.	340 mm / 13.5 in
Blank Thickness	Min.	N/A
	Max.	0.6 mm / 0.024 in

Other box dimensions are possible upon analysis. Reach out to your regional sales manager for an analysis of your specific boxes.

The MFA is not the speed limiting factor. Actual speed is determined by the packaging design, size and finish as well as the packing configuration. Requires a consistent input to run efficiently.

- The MFA is ideal for high speed batch counting and inversion of simple folding carton autobottom boxes. After inversion, batches are packed in vertical mode on the ERGOSA.

- Analysis will determine if boxes with tabs can be inverted.

- Corrugated boxes are not compatible with the MFA.
- Complex autobottom boxes with long lids or small flaps are not compatible with the MFA and will need to be hand packed on the ERGOSA.
